Introduction

Summer is just around the corner and parents are beginning to think about what activities will be available to offer their children for the summer as well as throughout the year. This familiar task is often a little more challenging for families of children with disabilities. In fact, individuals with disabilities may benefit from recreational opportunities throughout the year.

The **State Support Team Region 3 (SST3)** offers the *2010 Summer and Beyond Directory* as a resource to parents, family members and school district personnel about extended opportunities around the Cuyahoga County area.

The information in this directory is meant to be used as a reference and should not be considered comprehensive.

We do not make recommendations concerning the quality of these programs and strongly encourage readers to call the contact persons listed for clarification and explanation of their programs.

You may also contact your local community recreation departments, schools, county library branches, YMCA, YWCA, Scouts of America, and local cultural arts and entertainment centers for additional programs or activities.

Keep this book handy for NEXT YEAR'S planning!

Definitions

and

Codes

Included in each program descriptor there is a Population Served Code. The following will assist you in defining what special needs population is being served. These definitions have been taken directly from Ohio Department of Education's 2008 Operating Standards for Ohio's Educational Agencies Serving Children with Disabilities

EXCEPTIONALITY DEFINITIONS AND CODES

AUT	AUTISM – means a developmental disability significantly affecting verbal and nonverbal communication and social interaction, generally evident before age 3, that adversely affects a child's educational performance.
CD (DH)	COGNITIVE DISABILITY (Mental Retardation) - means significantly subaverage general intellectual functioning, existing concurrently with deficits in adaptive behavior and manifested during the developmental period, that adversely affects a child's educational performance.
ED (SBH)	<p>EMOTIONAL DISTURBANCE– means a condition exhibiting one or more of the following characteristics over a long period of time and to a marked degree that adversely affects a child's educational performance.</p> <ul style="list-style-type: none"> • An inability to learn that cannot be explained by intellectual, sensory, or health factors; • An inability to build or maintain satisfactory interpersonal relationships with peers and teachers; • Inappropriate types of behavior or feelings under normal circumstances; • A general pervasive mood of unhappiness or depression; and • A tendency to develop physical symptoms or fears associated with personal or school problems. <p>The term includes schizophrenia. It does not apply to children who are socially maladjusted, unless it is determined that they have an emotional disturbance.</p>
HI	<p>HEARING IMPAIRMENT – means an impairment in hearing, whether permanent or fluctuating, that adversely affects a child's educational performance but that is not included under the definition of deafness.</p> <p><u>Deafness</u> - means a hearing impairment that is so severe that the child is impaired in processing linguistic information through hearing, with or without amplification, and that adversely affects a child's educational performance.</p>
OI	ORTHOPEDIC IMPAIRMENT – means a severe orthopedic impairment that adversely affects a child's educational performance. The term includes impairments caused by congenital anomaly (e.g., clubfoot, absence of some member, etc.), impairments caused by disease (e.g., poliomyelitis, bone tuberculosis, etc.), and impairments from other causes (e.g. cerebral palsy, amputations, and fractures or burns that cause contractures).

EXCEPTIONALITY DEFINITIONS AND CODES

OHI	OTHER HEALTH IMPAIRMENT – means having limited strength, vitality or alertness, including a heightened alertness to environmental stimuli, that results in limited alertness with respect to the educational environment, that is due to chronic or acute health problems such as asthma, attention deficit disorder or attention deficit hyperactivity disorder, diabetes, epilepsy, a heart condition, hemophilia, lead poisoning, leukemia, nephritis, rheumatic fever, and sickle cell anemia, and adversely affects a child’s educational performance.
SLD	SPECIFIC LEARNING DISABILITY – means a disorder in one or more of the basic psychological processes involved in understanding or in using language, spoken or written, that may manifest itself in an imperfect ability to listen, think, speak, read, write, spell, or to do mathematical calculations, including conditions such as perceptual disabilities, brain injury, minimal brain dysfunction, dyslexia, and developmental aphasia. The term does not include learning problems that are primarily the result of visual, hearing, or motor disabilities; of mental retardation; of emotional disturbance; or of environmental, cultural, or economic disadvantage.
S/LI	SPEECH OR LANGUAGE IMPAIRMENT – means a communication disorder, such as stuttering, impaired articulation, language impairment, or voice impairment that adversely affects a child’s educational performance.
TBI	TRAUMATIC BRAIN INJURY – means an acquired injury to the brain caused by an external physical force, or by other medical conditions, including but not limited to stroke, anoxia, infectious disease, aneurysm, brain tumors and neurological insults resulting from medical or surgical treatments. The injury results in total or partial functional disability or psychosocial impairment or both, that adversely affects a child’s educational performance. The term applies to open or closed head injuries, as well as to other medical conditions that result in acquired brain injuries. The injuries result in impairments in one or more areas such as cognition; language; memory; attention; reasoning; abstract thinking; judgment; problem-solving; sensory, perceptual, and motor abilities; psychosocial behavior; physical functions; information processing; and speech. The term does not apply to brain injuries that are congenital or degenerative, or to brain injuries induced by birth trauma.
VI	VISUAL IMPAIRMENT INCLUDING BLINDNESS – means an impairment in vision, that even with correction, adversely affects a child’s educational performance. The term includes both partial sight and blindness.

CEOGC's Early Head Start and Head Start provides a holistic family development program funded by the U.S. Department of Health and Human Services and the Ohio Department of Education. All services are free to eligible, low-income families. Early Head Start and Head Start offers a comprehensive early childcare education curriculum supplemented with health, dental, nutritional, and psychology services designed to prepare children for a lifetime of learning.

Early Head Start and Head Start provides an atmosphere of mutual trust, support and stability. The program ensures that children, parents and staff are provided the opportunity and support to reach their fullest potential educationally, economically and socially.

Comment:

Special Olympics is the world's largest program of athletic training and competition for individuals who are mentally or developmentally challenged. Since its inception in 1968, the program has grown to more than 700,000 athletes and 500,000 volunteers in more than 100 countries around the globe.

To be eligible for Special Olympics, an athlete must be:

- an individual who is mentally or developmentally challenged;
- eight years old or over (ages 5 – 7 may be in training programs);
- have a valid application for participation and release form on file; and
- be a member of an accredited local Special Olympics organization.

Training is a major aspect of Special Olympics and very important because in Special Olympics, victory is secondary to striving toward one's own athletic potential and reflected in the Special Olympics oath:

"Let me win, but if I cannot win, let me be brave in the attempt."
